

**CHECKLIST #25****RADIOLOGICAL EMERGENCY SAFETY CHECKLIST****Immediate Precautions**

- Notify your Facility Radiation Safety Officer (if applicable), 911, the local authorities and Radiation Control Authority on Accident Conditions. Follow applicable permit and regulatory requirements.
- Notify 911 of the possible presence of radioactive materials.
- Isolate hazard area in accordance with your As Low As Reasonably Achievable (ALARA) plan and restrict access.
- Do Not Touch containers.
- Upon arrival of Law Enforcement or Fire Department, inform the First Responder that radioactivity may be present.
- In the case of fire, Do Not attempt to move containers out of fire zone.
- Retreat to a safe area and wait for Local Authorities. Please note, radioactivity does not change flammability or properties of other materials.
- In the case of a medical emergency, use First Aid treatment according to the nature of the injury.
- Advise medical personnel that victim may be contaminated with radioactive material.
- Detain persons exposed to Radioactive Material until arrival or instruction of Radiation Control Authority. Potential route of exposure can include Inhalation, Ingestion, or Breaks in Skin.
- Include business specific information in your emergency plans. Inform the employees regarding radiation safety. Follow your ALARA plan. Publish a telephone number to be used by employees to call their supervisor and be prepared to provide reporting instructions.
